7 MORE SHIPS

Guam, Thursday, Aug. 2 (AP)—Wake Island was bombed by a big American battleship Wednesday while carrier planes raked the former American base with bombs and bullets, Admiral Nimitz announced today.

"There was slight opposition from shore batteries and anti-aircraft fire," the communique said, "but no personal casualties were suffered and damage to our ships was extremely minor."

Simultaneously, Nimitz disclosed the dramatic rescue of 283 natives from the Japanese held Island of Jaluit in the Marshalls on the south of Wake on the same day.

"Some opposition from the enemy garrison was encountered," Nimitz said, but the rescuers—light units of the U. S. Pacific fleet—"suffered no casualties."

Wake was last shelled by a task force September 3, 1944, when its coastal guns and anti-aircraft positions were heavily damaged.

It has been raided many times by Navy planes.

## FACTORIES SET AFIRE

Manila, Thursday, Aug. 2 (AP)—Far East Air Force planes turned destructive blows against Kyushu industries and communications Tuesday while paring another seven ships from Japan's operational war and merchant fleets despite bad weather.

General MacArthur announced the sinking or damaging around Kyushu of a 2,000-ton tanker, three medium freighters or freighter transports, two destroyer escorts and a coastal vessel.

A spokesman said Mitchell's medium bombers also scored direct hits on a 3,000-ton freighter previously beached near Nagasaki, on Western Kyushu.

One of the day's heaviest strikes was against factories at Marushima, an industrial center on southwestern Kyushu. Bombs caused "many very large fires and explosions," MacArthur said in his communique. A plant for the fixation of nitrogen was a special target.

Suitor Admits He  
Killed Woman, 43,  
With Beer Bottle

Detroit, Aug. 1 (AP)—Thomas Shupick, 38, confessed today Assistant Prosecutor Martin Paulsmo said, to the fatal beating of Mrs. Rae Benning, 43.

Paulsmo quoted Shupick as saying he struck the woman on the head five times with a beer bottle after she had refused him payment of \$350 she had borrowed.

Police said that Mrs. Benning, who died a few hours after the beating, stated Shupick had beaten and slashed her with a broken bottle because she refused to go out with him.

Detective Lt. Lester Chorpensing quoted Shupick as saying: "She swore at me and called me names. I didn't like it, so I slapped her face. She jumped at me, and I hit her with my fist."

"She went after me as if she was crazy. I had to defend myself. I hit her with a beer bottle. The bottle broke, and I went on hitting her until she fell."

Police said they will ask for a warrant against Shupick.

Battered Battleship  
Mississippi Returns  
To Prowl In Pacific

Washington, Aug. 1 (AP)—The battleship Mississippi, punctured by a suicide plane January 9 at Lingayen Gulf in the Philippines, is back on the prow for the Pacific with 300 per cent more fire power.

The Navy waited until today to tell about the action.

Twenty-two men were killed on the "Old Miss." Eighteen more were injured, and so was the 28-year-old battleship. But she went right on fighting for three months, then went to Pearl Harbor for permanent repairs and general overhaul.

The extra fire power, added during the overhaul, the Navy

CHINESE SEIZE  
BASE OF PINGLOOld Flying Tigers Field  
At Lingling Target Of  
New Spearhead

BY SPENCER MOOSA

Chungking, Aug. 1 (AP)—Chinese troops have captured the bomb-battered Japanese supply base of Pinglo in south-central China and have hurled a new spearhead at the old Flying Tigers' airfield at Lingling, 370 miles southeast of Chungking, the Chinese high command said today.

Pinglo, blasted repeatedly by U. S. 14th Air Force bombers and fighters, was one of the most important Japanese supply depots in Kwangsi Province. It was recaptured last Friday by Generalissimo Chiang Kai-shek's troops who had been pushing for a month toward the highway center from Luichow, 74 miles west southwest.

One hundred and thirty-three miles north of Pinglo, Chinese soldiers launched a new blow toward Lingling from the northwest in a developing two-pronged drive against that key Japanese stronghold in Hunan Province.

A communique reported that Chinese forces attacked at a point southeast of Sinning, an outlying bastion of Lingling 55 miles northwest of the airbase center. The Chinese killed more than 100 Japanese troops in the first phase of the attack. At the same time, other Chinese columns were fighting toward Lingling from the southwest, although their drive along the Hunan-Kwangsi railroad appeared temporarily stalled after a reported sweep to the area of Hingan, 73 miles away.

The Chinese drive toward Lingling threatened the western flank of Tokyo's transcontinental corridor from Korea to Hong Kong.

Atlantic Hop Only  
12-Hour Trip Now

Paris, Aug. 1 (AP)—Regular 12-hour flights from New York to Paris were predicted tonight following a record flight of the Army Air Force Transport Command's C-69 Constellation.

The ship landed at Orly Field after a 3,660-mile non-stop flight from New York in 14 hours and 12 minutes.

"We did not have very favorable winds or we would have come over in better time," said Lt. Col. Norman F. Timper of Water-town, Mass., who piloted the plane.

LABOR PARTY  
NOW BOSS IN  
GREAT BRITAINNATIONALIZATION OF  
INDUSTRIES FIRST  
ON PROGRAM

London, Aug. 1 (AP)—In an atmosphere of age-old tradition, the British parliament convened today for a historic session under control of the Labor party.

The House of Commons sat for exactly one hour and re-elected Col. Clifton Brown as speaker. The House of Lords met to swear in new peers. Parliament will not consider legislation until King George VI opens it formally Aug. 15 with an address outlining the new government's program.

With 388 members in a house of 640 seats, Prime Minister Clement R. Attlee's government goes to work with the strongest labor majority in British history. His lieutenants were prepared to plunge at once into their program of nationalizing the country's basic industries.

## Churchill Cheered

Attlee was unable to attend today because of his conference with President Truman and Generalissimo Stalin in Potsdam. His place was filled by Herbert Morrison, lord president of the council and Commons majority leader.

Former Prime Minister Winston Churchill was there, and roaring cheers from his Conservative and Nationalist followers accompanied him to the bench where he will sit in his new role of leader of the opposition. Both Churchill and Morrison made their first speeches of the session.

Churchill, after congratulating Brown, said "this parliament undoubtedly will differ from the last. The last had many unexpected vicissitudes. No one can foretell what the future may bring forth."

Troops Now Sailing  
Directly To Pacific  
At Marseille Port

Paris, Aug. 1 (AP)—The redeployment flow of troops to the final big processing camps at Le Havre for shipment to the United States has dropped off markedly from a month ago and emphasis appeared to have shifted to Marseille, where troops sail directly to the Pacific.

Officers at the Marseilles processing camps said the troop flow direct to the Pacific was increasing considerably.

Now at the Le Havre camps are only the main body of the 30th Division. A month ago, several times as many troops were there.

The main body of three more divisions, whose advance parties have sailed from Le Havre, are still in the Reims assembly area.

The redeployment status:

9th Air Force headquarters, 13th and 20th Armored, and 28th Divisions—on the high seas.

13th Airborne Division—advance units sailed from Le Havre today, main body at Reims assembly area.

30th Division—Advance units sailed from Le Havre July 22.

35th Division—Main body at Reims assembly area, advance parties sailed from Le Havre July 21.

Colorado Springs, Colo., Aug. 1 (AP)—An American army guard shot and killed three German prisoners of war who apparently threatened to rush him, after refusing to work in a field 14 miles from Ovid, Colo., this morning, the Camp Carson Public Relations office announced.

The guard, Pvt. Harold W. Garland, who had been wounded in combat overseas, told Camp Carson prisoner of war camp officers that the three prisoners had made threatening remarks before the shooting.

Plane Crash Kills  
INS Correspondent

New York, Aug. 1 (AP)—The International News Service announced today that John Cashman, 27, INS war correspondent, was killed yesterday in the take-off crash of an army bomber at Okinawa.

Cashman, who lost his left arm in a ship accident while serving in the navy in 1942, went to the Pacific for INS last March.

He is the 32nd war correspondent to lose his life in World War II.

Over 6,000 Tons  
Of Bombs Rained  
On Four Jap Cities

Guam, Thursday, Aug. 2. (AP)—Japan trembled under probably the greatest air raid of history today as a record armada of 800 American B-29s burned and blasted four cities and a vital oil center.

The earth shook from explosions of more than 6,000 tons of fire and demolition bombs shortly after midnight.

This immense tonnage was equivalent to loads carried by upwards of 2,000 Flying Fortresses or Liberators — the heaviest American bombers used against Germany.

The four cities were all on the B-29 "surrender or die" warning list.

## Ten Submarines Bagged

They were among 12 industrial and transportation hubs notified only 24 hours earlier that they were on the B-29 schedule.

This new and smashing blow came as a flagship dispatch disclosed the marauding U. S. Third fleet had struck at Japanese submarines, destroying or damaging at least 10, after smashing about all that was left of the imperial surface and air navy.

Bombers and fighters of the Far East air force added to destruction on the Japanese mainland, General MacArthur announced today in Manila, by blasting shipping and installations on and around Kyushu Island Tuesday.

The communique reported factories and fuel depots were left in flames; ten locomotives, seven railroad cars and a number of motor vehicles were wrecked, and seven ships were sunk or damaged.

KELLY ORDERS  
PRISON INQUIRYSenate Asked To Trace  
Flaws In Michigan  
Penal System

Lansing, Aug. 1. (AP)—Governor Kelly moved today to coordinate double-barreled investigations of the Michigan penal system, one of which already has produced sensational charges of maladministration in the state prison of southern Michigan.

Kelly asked that a proposed senate investigation of the corrections system be confined to seeking flaws in current operations and policies and that it not "rehash" Attorney General John R. Dethmers' charges of immorality, lax administration, gambling, drunkenness and favoritism in the big southern Michigan prison.

He urged that when the senate investigating committee is appointed later this week by Lt. Gov. Vernon J. Brown it meet with himself, Brown, Dethmers, the Civil Service commission and the corrections commission to define lines of investigation and to proceed in an "orderly manner."

Brown declared the Michigan corrections law, called a model statute by national penologists, contained "innocuous" when it was adopted in 1937 and no changes or revision of it has been made since. The question is whether it has worked as hoped and, if not, what should be done about it.

The four cities, with a combined population of about 240,000 brought to 56 the number of Japanese war production centers hit by the B-29s.

Today's mission left nine Japanese cities still to be erased from the list of 19 named in advance for destruction. They are Fukuyama, Koriyama, Maebashi, Maizuru, Nagano, Nishinomiya and Otsu, all on the main island of Honshu; Hakodate on Hokkaido and Kurume on Kyushu.

POTSDAM JOB  
IS WOUND UP  
BY BIG THREEREPORT TO WORLD  
WILL BE GIVEN  
OUT FRIDAY

BY DANIEL DE LUCE  
Potsdam, Thursday, Aug. 2 (AP)—The historic making conference of the big three has ended, an announcement at 2:15 a. m. (7:15 p. m. EWT) today said, and a report on their decisions was expected to be made to the world tomorrow.

The final meeting of President Truman, Premier Stalin and Prime Minister Attlee was concluded half an hour after midnight, the official statement said.

At the same time it was disclosed that the conference sessions had been held at Cecilienhof, former residence of the German crown prince.

To the end the leaders of the world's three most powerful nations adhered to the self-imposed secrecy behind which they have worked here since July 7.

An army public relations officer said the official communique covering the actions of the conference would be made available to correspondents sometime tonight (Thursday) for study, but that release would be made simultaneously Friday in Washington, London, Moscow and Berlin.

Truman Visits King  
As they moved through the closing diplomatic formalities, a fleet of transport planes waited at a nearby military airfield to whisk Truman to Plymouth and a meeting tomorrow with King George VI, and to return Attlee to London to take over the reins of the Laborite government.

Stalin and Foreign Commissar Vyacheslav Molotov may depart almost immediately by special train on the long journey to Moscow.

The full score of what the big three accomplished may not be disclosed for a considerable time—perhaps not before a decisive turn is reached in the Japanese war.

Stalin, by lending the prestige of his physical presence to the Truman-Churchill-Chiang Kai-shek ultimatum from Potsdam to Japan, and by consenting to the disclosure that he had talked in the palace here to Admiral Lord Louis Mountbatten, Britain's highest commander in the Far Eastern struggle, gave strength to the widespread belief he was actually coordinating Soviet military forces with those of the United States in the Asiatic theater.

Wife Plays Soldier;  
Shotgun Is Fatal

Muncie, Ind., Aug. 1. (AP)—Mrs. Betty Jean Warfel, 20, wife of Frank Warfel, was wounded fatally today by a shotgun discharge at her home west of Muncie as she was playing "soldier" with five neighbor children.

Coroner Gallon Stephens said the gun was in the hands of a 13-year-old boy when it was discharged. The full charge struck Mrs. Warfel in the right breast and she died enroute to a hospital. The boy was not held.

LEAHY'S LETTER  
DEFENDS PETAIN

Treason Trial Lags As  
All Await Arrival  
Of Pierre Laval

BY BELMAN MORIN

Paris, Aug. 1 (AP)—A letter from  
Acim, William D. Leahy, President  
Truman's chief of staff, to Marshal  
Henri Philippe Petain was drama-  
tically introduced by the de-  
fense today into the aged Vichy  
chief's trial for treason.

Leahy, American ambassador to  
the Vichy government in the cru-  
cial days after the fall of France,  
said Petain "often expressed the  
fervent hope that the Nazi invaders  
would be destroyed." But  
Leahy added that at times the  
marshal declined to oppose the  
Nazis during the German occupa-  
tion.

A statement attributed to former  
British Prime Minister Church-  
ill also was introduced by the  
defense to support the argument  
that the Franco-German armistice  
benefitted both France and the  
Allies. Churchill was quoted as  
saying that the armistice did Brit-  
ain "a good service."

These were the highlights of the  
ninth day of Petain's trial on  
charges of intelligence with Ger-  
many and plotting against the  
security of France—a day marked  
by sharp, bitter recriminations be-  
tween the military and political  
leaders of France in 1940 and the  
jury's lack of interest.

Everyone awaited Pierre Laval,  
No. 2 man in the Vichy regime  
and described as Petain's "bad  
counselor" and "evil genius."

of a military aspect which Truman  
presented to Stalin were such that  
bargaining was not necessary.  
Agreement in principle apparently  
had been reached previously by  
the big three. Thus, U. S. Sec-  
retary of War Stimson could leave  
Potsdam much earlier than Tru-  
man's political advisors.

On the European side of the  
parley's agenda, there were nu-  
merous indications that agreement  
came quickly for some issues  
which observers on distant side-  
lines had speculated might be se-  
verely disputed.

Yalta in Russian eyes was a  
landmark of Soviet statecraft giv-  
ing inter-Allied authority to the  
Kremlin's long-range plans for  
eastern Europe. The best clues  
available tonight seemed to show  
that the Berlin conference over-  
turned nothing which Stalin  
gained last February with Roose-  
velt's and Churchill's consent.

Laval Is Accused  
Of Plot To Make  
Britain Fight Vichy

London, Aug. 1 (AP)—A British  
White paper issued tonight asserted  
that Pierre Laval plotted in the  
fall of 1940, with German approval,  
to involve Britain in war with  
the Vichy French government.

The document declared that Sir  
Samuel Hoare, British ambassador  
to Madrid, cabled Viscount Hal-  
ifax, then British foreign secre-  
tary, that Laval intended to use  
the French fleet and military units  
in recovering French colonies  
which had declared for Gen. De-  
Gaulle's Free French regime.

Hoare said he obtained the in-  
formation from the French am-  
bassador.

Britain had promised, the paper  
said, to support DeGaulle and if  
the French and British fleets had  
come into conflict the then Vichy  
premier would have claimed it  
was an act of aggression by the  
British fleet.

"The ambassador," Sir Samuel  
cabled, agreed with me that if it  
was carried out it would undoubt-  
edly mean war between Great  
Britain and Vichy."

Accidental Deaths  
Of Farm Residents  
Declined In 1944

Chicago, (AP)—Deaths of farm  
residents from accidents were 5  
per cent fewer in 1944 than in  
1943.

An analysis of 1944 farm acci-  
dent figures was released today  
by the National Safety Council in  
connection with National Farm  
Safety week, July 22-28.

A decline of about 3 per cent in  
the farm population "undoubtedly"  
was a factor in the decrease,  
the council declared.

Total accidental deaths were  
14,800 for farm residents, of which  
6,000 took place in farm homes.  
Motor vehicle accidents killed 4-  
300 farm persons in 1944 and farm  
work accidents another 4,300, in-  
cluding 800 fatalities with motor  
vehicles.

Fires destroyed \$90,000,000 of  
farm property last year, one-fifth  
of the national fire loss.

Falls, burns and firearms were  
the principal causes of farm home  
fatalities, and mishandling of  
machinery and livestock, plus  
falls, the chief causes of farm  
work accidents.

Former Vichy Chief  
Returned To Paris,  
Lodged In Lock-Up

Paris, Aug. 1 (AP)—Pierre Laval,  
the tired, paunchy former chief  
of the Vichy government, was  
brought back to Paris today to  
stand trial for collaborating with  
the Germans in 1940 when Hitler's  
juggernaut overran France.

The plane bearing Laval and his  
wife here from Innsbruck arrived  
at the Le Bourget airport at 5:50  
p. m. (12:50 p. m. Eastern War  
Time), the prefecture of police  
said.

As soon as Laval stepped from  
the French air force plane he was  
arrested by the commissioner of  
national police in the presence of  
Pierre Betelle, an examining  
magistrate attached to the high  
court of justice.

Then the one-time premier of  
France and his wife were  
whisked into the city and locked  
in the Fresnes prison. Interroga-  
tion of the prisoner was expected  
to begin immediately. Madame  
Laval apparently was not under  
arrest.

BOMBER IN LAKE

Detroit, Aug. 1. (AP)—A medium  
bomber with five crewmen aboard  
crashed today in 13 feet of water,  
five miles out in Lake St. Clair,  
Selfridge Field army air base offi-  
cers said. Fate of the crew has not  
been determined. The crew con-  
sisted of four French soldiers and  
an American.

According to reports from Great  
Britain, British tractors and other  
agricultural machinery will be on  
the market by late summer.

Federal Budget  
Assumes War Will  
Continue In 1946

Washington, Aug. 1 (AP)—A re-  
vised federal budget of \$5 billion  
dollars was issued today on the  
assumption the war in the Pacific  
will roar on until next summer or  
longer.

Government spending now is  
forecast at \$5 billion in the fiscal  
year 1946, which began a month  
ago. A record-breaking 100 bil-  
lion were spent in fiscal 1945.

The new estimate is slightly  
above the \$3-billion estimate set  
to congress last January, mainly  
because of this country's brand-  
new obligations in the field of in-  
ternational finance.

The January estimate of 70  
billion dollars of war spending  
still stands, though the European  
war has collapsed in the mean-  
time.

Chicago Girl Tours  
Peninsula On Bike,  
Praises Munising

Munising—Miss Gladys Larson,  
of Chicago, who has been touring  
the peninsula by bicycle, left  
Munising Wednesday morning to  
start the return trip to Chicago.

Miss Larson went by boat to  
Benton Harbor, then wheeled her  
way to Munising, taking in Mack-  
inac Island, Sault Ste. Marie and  
Tahquamenon Falls, and other  
scenic spots on the way. Miss  
Larson then left her bicycle in  
Munising for a few days, going to  
the Copper Country by car with  
some friends.

Miss Larson is a teacher of phys-  
ical training in the Amundsen  
high school, Chicago. Miss Larson  
says she has done some "wheel-  
ing" in Denmark and England  
but nothing as extensive as her  
present trip. She finds the Upper  
Peninsula very alluring even to  
one who has seen quite a bit of  
Europe and practically all of the  
United States. Miss Larson de-  
clared that Munising is the pretti-  
est city she has visited on this  
trip.

Department Store  
Sales On Increase

In the Upper Peninsula, June  
department store sales rose 12 per  
cent over June of last year, while  
cumulative sales to date show an  
increase of 14 per cent when com-  
pared with the same period of  
1944.

Aggregate retail trade in North-  
ern Wisconsin and Upper Penin-  
sula Michigan, as evidenced by  
department store sales, exceeds  
that of June 1944 by 7 per cent.  
The greater-than-for June 5 per  
cent increase for the similar  
period last year.

According to figures just re-  
leased by the Federal Reserve bank  
of Minneapolis, June sales at 565  
department stores in the Ninth  
Federal Reserve District were 12  
per cent higher than those of the  
same month last year. Total sales  
through the second quarter were  
up 11 per cent over 1944.

Tenth Air Force  
Back In Business  
On Chinese Front

Kunming, Aug. 1 (AP)—The U. S.  
10th Airforce which spearheaded  
the smashing of the Japanese in  
Burma is back in the bombing  
business in China, greatly aug-  
menting the American airforces  
operating here.

Lt. Gen. Albert C. Wedemeyer's  
headquarters announced today  
that the famed air unit now is a  
part of Maj. Gen. George E.  
Stratemeyer's new aerial com-  
mand, U. S. 14th Air Force, formerly com-  
manded by Maj. Gen. Claire L.  
Chennault.

The 10th Airforce, commanded  
by Maj. Gen. Howard Davidson, is  
now for its support of ground  
forces and air supply of offensive  
infantry, both functions which  
would fit into any Chinese ground  
force offensive.

Richard Anderson  
Dies Suddenly At  
Gladstone Meeting

Richard Anderson, 60, a well-  
known dairy farmer of Perkins,  
died suddenly Wednesday evening  
while attending a dairy meeting  
at Trainmen's hall on Delta ave-  
nue in Gladstone. It was believed  
that he suffered a heart attack.

He is survived by his widow,  
three sons, two daughters and one  
brother. The brother lives in De-  
troit.

The body was taken to the  
Kelley funeral home. Funeral ar-  
rangements have not been com-  
pleted.

Allow eggs to stand a few min-  
utes at room temperature before  
beating them.

Munising News

The funeral of James Adair,  
Teddy Curley, of Manistique,  
who has been visiting at the home  
of his aunt, Mrs. Jack Vizona, re-  
turned home Wednesday. Teddy  
hurried home to see his brother,  
just back from Germany. The bro-  
ther was shot down over Ger-  
many and spent some time in a  
prison camp. He had been offi-  
cially reported as lost.

S/Sgt. Charles Olson has re-  
ported to Camp Grant, Illinois,  
after a 30-day furlough at home.  
H. R. Taylor and William Glas-  
ier, timber buyers of Murcie, Ind.,  
left Munising Wednesday after a  
four day stay here.

Mr. and Mrs. George Gruse, of  
St. Louis, Mo., representatives of  
the American Red Cross, are  
Munising visitors.

Mr. and Mrs. David Sailors and  
Mr. and Mrs. E. J. VanZooen, of  
Grand Rapids, are here for the  
lake fishing.

Byron Coles, superintendent of  
the Trenary schools, was a busi-  
ness visitor here Wednesday.

Mr. and Mrs. Bud Metz and  
daughter and son and Mr. and  
Mrs. George Wachter, of Detroit,  
are camping at Au Train. Both  
families are former residents of  
Munising.

MASONIC PICNIC

The Masonic lodges of Ishpe-  
ming, Negaunee, a joint family  
picnic at the tourist park, Mar-  
quette, Sunday, August 19, begin-  
ning at 2 p. m. The picnic com-  
mittee reports to all Masons in the  
area:

"Coffee, cream, pop and ice  
cream will be furnished but it will  
be necessary that you pack your  
own basket. A fine program of  
sports and games has been ar-  
ranged and everyone attending  
should have a very enjoyable af-  
ternoon and evening."

"This is the first event of this  
nature which has been attempted  
for some time and we naturally  
wish it to be a huge success."

All who will attend are asked  
to report to the committee, as soon  
as possible.

JAMES ADAIR

Last rites for James Adair, ac-  
cidentally drowned at Lost Lake  
Sunday evening, were conducted  
by Rev. K. O. Saverio at the Be-  
audeau funeral home Wednesday  
at 2 p. m.

Escorts were Wesley Ward,  
Lowell Gibson, Stanley Fiel, Carl  
Larson, Charles Parsons and Wil-  
liam St. Peter.

FOR THE NORTHWEST'S  
GRAIN CROP

Waving grain fields stir up in all of us a certain feeling of  
pride. They recall harvest and threshing scenes... a busy  
flour mills... bread on the table... food for a hungry  
world. Millions of bushels from our great Northwest will  
be milled and shipped all over the world—and the Soo  
Line will start them on their way. It was to fulfill just  
such a purpose that this railroad was built many years ago.

Due to a war-caused shortage of freight cars, it will  
take careful planning to handle this tremendous tonnage.  
Its accomplishment will require the cooperation of all  
shippers and receivers of freight as follows:

Load cars to the limit;  
Load on the day car is received;  
Unload cars immediately;  
Notify us when car has been  
unloaded.

For assistance with your shipping  
or travel problems, call or write:

Agent, Minneapolis, Minn.

OPA Investigators  
Get Training Here

A five-day training school for  
OPA investigators is being held in  
the city hall at Escanaba, where  
nine investigators who will work  
out of the Escanaba OPA district  
office are receiving training in  
relation to investigative tech-  
niques. The school of instruction  
will end tomorrow.

John D'Aegro, training super-  
visor from the OPA Cleveland re-  
gional office, and Louis J. Greg-  
ory, district enforcement attorney  
from the Escanaba district office,  
are conducting the school.

The additional investigative  
force is in line with OPA policy  
that the time for educational pro-  
grams is past, and that enforce-  
ment of regulations is increasingly  
important. There has been no in-  
crease in violations in the U. P.  
district, it was explained.

### Must Have Federal Car Use Tax Stamp; Start Enforcement

A full force "invasion" of Upper Peninsula communities by the staff of six deputy revenue collectors, traveling together, will begin in Marquette, August 1, to enforce the Federal Car Use Tax law according to John Fugere, Upper Peninsula director.

Fugere, who has returned from Detroit where the "hit hard and fast" method of enforcement was given approval, said he will take his staff of six men from city to city, scouring the areas for cars not having the green use tax sticker on their windshields.

"We want to see a tax stamp on every car," Fugere declared, "and we hope all have them when we arrive. The law applies to all car owners and our job is to see that it is enforced indiscriminately."

Fugere estimated that at least 30 per cent of the automobile owners in his district have failed to comply with the use tax law and he warned that owners whose cars are found without the Federal stamps will have to pay penalty in addition to the \$5 for the stamp.

**T/5 Ernest Bernard**, son of Mr. and Mrs. Edgar Bernard of Garden, Mich. has been awarded the Driver and Mechanic Award Badge with Bar. He now is serving on Northern Luzon with company C, 114th Engineer Combat Battalion of the 32nd "Red Arrow" Infantry Division, where his assigned duty is that of truck driver.

A veteran of the Papuan, New Guinea, Leyte, and Luzon campaigns, T/5 is one of the original "Buna Busters" in his company. He entered the army in April 1941 and sailed for the South Pacific in April 1942, with the first contingent of American troops destined for that theatre.

In addition to the driver and mechanic award badge, Cpl. Bernard wears the American Defense Ribbon, the Distinguished Unit

Badge the Asiatic Pacific Theater Ribbon with four Stars, and the Philippine Liberation Ribbon with Star. The Bar addition to the driver's Badge is for proficiency as a truck driver.

Arrival of Sgt. William E. Savageau, of Escanaba at Camp McCoy's personnel center for redeployment was announced yesterday. Sgt. Savageau's service record follows: He served with the 95th Depot Supply Sg. 2nd ADG. He won the ETO ribbon with 2 stars.

He is the son of Mr. and Mrs. William Savageau, 502 So. Fourteenth street, Escanaba.

Frank W. Carlson of Cornell is enroute home from the European Theater of Operations with the veteran "Bloody Bucket" Division, which in eight months saw vicious combat action from Normandy's hedgerows to the heart of the Reich.

The 28th quit its occupational duties in Germany July 5th and moved to Camp Pittsburgh, one of Assembly Area Command's 17 redeployment camps near Reims.

Entering action July 30, 1944, at St. Lo, the "Bloody Bucket" men battled across Normandy, paraded

through Paris, proceeded east through Belgium and Luxembourg, and smashed into the Siegfried Line September 11th — the first troops to enter Germany in strength.

After its November fight in Hurtgen Forest, the 28th moved to the "quiet" Luxembourg sector. On December 16, it caught the full force of Van Rundstedt's Ardennes offensive. Quickly recuperating, the 28th moved south to help liberate Colmar in Alsace and drive to the Rhine. Within a month, it was again at the Rhine near Coblenz.

Sgt. Carlson is the son of Alex Carlson, Cornell, Mich.

He holds the following decorations: Pre-Pearl Harbor Ribbon, Good Conduct Ribbon, E. J. O. Ribbon with 3 Campaign Stars, Inf. Badge, Croix-de-Guerre Cross of War.

### Dentist's Drill May Be Replaced

Chicago—Good news for those who dread the dentist's drill appears in the forthcoming issue of the Journal of the American Dental Association here.

The drill may be replaced by a new device which cuts tooth enamel and dentin swiftly and without pain or noise. It was developed by Dr. Robert B. Black of Corpus Christi, Texas.

"Airbrasive" is the name Dr. Black coined for the new instrument. It operates somewhat on the

principle of a sand-blast, but does not use sand and does not use a diffuse or blast type of airstream.

Mica is an excellent non-conductor of heat and electricity, and is resistance to decomposition is high.

"Weed" Trees Valuable

AMERICA'S paper making industry is making plans for postwar expansion and improvements in a manner that indicates its leaders are not unduly worried about the problem of obtaining an adequate timber supply in the future.  
The Minnesota & Ontario Paper company has announced it proposes to spend more than six million dollars to expand its facilities. The Mead corporation has had engineers at work for many months making plans for postwar changes at its plants in Groes and Manistowish. In the Fox river valley and other sections of Wisconsin, paper companies are preparing to make new products and in other ways make ready for peacetime business activities.

While the great white pine stands have been logged off in the Great Lakes region, the forest products industries still provide much employment through the utilization of jackpine, poplar and the other species the old-time lumbermen spurned as "weed" trees. In fact, the cash return is even greater, for Minnesota's director of forestry points out that at the peak of the state's logging operations in 1904 the value of the forest products was \$28,405,000, while in 1943 the total revenue was \$68,000,000. Output of paper and insulation materials yielded about half of this sum. Manufacture of box boards, cooperage, fence posts and other products accounted for the rest.  
The new forestry industry, which has grown out of the old, not only is yielding more wealth, but it is also more stable than the one it replaced.

Coast Guard Anniversary

THE nation will pay tribute on Saturday to the U. S. Coast Guard in the observance of the 155th anniversary of the birth of this organization. Numerically, one of the smaller branches of the armed services, it yields to none in the importance of its work or the courage of personnel. Its fighting men have reason to be proud of their present accomplishments and their distinguished tradition.  
The Coast Guard has spearheaded all the great invasions of this war. Its men have fought submarines, performed rescues at sea with boat and helicopter, guarded ports through which supplies flow, supervised the safety equipment and training of merchant ships and seamen, maintained navigational aids, and carried out many other unpunctuated but highly necessary duties.  
And in the invasion of Japan the Coast Guard will again be in vanguard, guiding the swift landing craft through gunfire and mines, directing traffic, evacuating casualties. The Coast Guard is making no small contribution to the winning of this war.

Henry Sees the Light

FORMER Secretary of the Treasury Henry Morgenthau has confirmed two developments of which many voters were cognizant for a long time. The former secretary says that he was kicked out and did not want to resign.  
The second discovery Mr. Morgenthau announces—and which he could have made ten years ago with great benefit to the country—is that no secretary can be a real watchdog of the treasury under the present setup. He recommends that his successor be given policy control of all spending, lending and insuring done by government agencies.  
He recommends also that the budget bureau be put back in the treasury where it used to be. The dispatch quoting him reads:

"He proposed that the Treasury have policy control over lending and borrowing activities of the Federal Loan Agency and Agriculture Department and policy influence over the Federal Reserve System and the Securities and Exchange Commission."  
It is almost as if Morgenthau had let Sen. Harry Byrd been talking for years, and what all but the venal segment of the press has been emphasizing a long time. Senator Byrd has tried to be the watchdog of the treasury, which Morgenthau was unable to be under the New Deal setup.  
Morgenthau is—belatedly—right. Congress should have control of government finances and the treasury department should enforce the mandates of Congress. The era of bureaucratic spending of billions of dollars without the slightest control of the people's elected representatives must end or this country soon will be reduced to automatic socialism. Private enterprise cannot be sustained on unaided and profligate bureaucracy.

The Strain Increases

IN FILING a request for aid to the amount of \$700,000,000, Soviet Russia has hastened the day when the resources of the United Nations Relief and Rehabilitation Administration will be strained to the limit. To date, the United States has supplied all but a small amount of the funds available to the UNRRA. Many nations which joined in this worthy enterprise have contributed nothing.  
The request has not yet been approved. It must be examined, Deputy UNRRA Di-

rector Roy F. Hendrickson has explained, in the light of "Russia's ability to pay." Who will determine this he does not reveal. There is little doubt that the sum will be granted.

Large as this sum is, it is only slightly greater than the amount sought by Poland, which is asking for between \$600,000,000 and \$700,000,000, and it is less than the \$945,000,000 China has applied for to cover an 18-month period.  
But it is clear that it will not be long before the UNRRA is "pretty short of funds," as Mr. Hendrickson puts it. At present the main problem is turning money into goods, yet the demands are still rising and as the organization solves the immediate problem it will dig deeper and deeper into its bank account. Eventually it will follow the old pattern of asking Congress for more and more funds.  
The pattern will become clearer when the UNRRA council meets in London next month. At that time it is expected that the financial position will be indicated along with the kind of program that will be followed in 1946.

No Substitute

THE recent 17-day strike by newspaper deliverymen in New York City has convinced many persons there is no adequate substitute for newspapers as a purveyor of the news.  
Public opinion polls made during the strike in New York brought out some interesting replies. Interviewers found that 74.2 per cent in the first survey had missed most or an important part of the usual budget of national and war news. In the second survey, the percentage had risen to 76.4. In advertising, 79.1 per cent of the women said they missed it very much or moderately.  
The figures serve to emphasize that the newspaper is still dominant in the field of news dissemination and advertising, and will continue to hold this position for a long time to come.

ISLANDS ARE LOOKING UP (Sault Ste. Marie News)

Post-war air travel will make vacation playgrounds of many of Michigan's islands in the Great Lakes and connecting waters, in the opinion of those who have studied the prospects. Air routes will bring them within easy reach of any part of the State, and as many of them are still unspoiled, they will have an exceptional lure for the summering public.  
Mackinac Island naturally comes to mind when one is thinking of island resorting possibilities. Famed throughout the earth, Mackinac is an outstanding example of offshore developments. The island was a resorting place for southerners as far back as 1830, when Mississippi and Louisiana planters began bringing their families northward for summer outings on the Fairy Isle.  
The Michigan Conservation Department has had survey crews at work on South Manitou, Beaver and Drummond Islands in Lake Michigan and Lake Huron. The State owns about 40,000 acres on Drummond, and a program for development is projected that will enhance the natural beauty of the surroundings without destroying their primitive charm.  
When the war is over, there are indications that Sugar, Neeshib and perhaps Lime Islands will have an opportunity to display their potential appeal to travelers and visitors. St. Mary's river shores and islands are among the last in the peninsula to feel the impetus which succeeding summers have brought to the north country. The area is ideal for summer homes, and the building of such residences is a desirable addition to local communities.  
The fitting tourist who is here today and gone tomorrow is not to be compared in value with the man who brings his family to a home for the season and acquires a real stake in the community. Many people believe that the manifest destiny of the river area, both up and down stream from the Sault, will take that trend, and that the river islands will be among the chief beneficiaries in the years to come.

MEAT HUNTERS (Iron Mountain News)

The state conservation commission finds that it has a war problem on its hands. There has been, its officials declare, a great increase in illicit hunting, due to desire to get meat for depleted larders. As deer are the most valuable and the best distributed source of meat supply they have been sought of late by increasing numbers of meat hunters. If these hunters are not effectively restrained there will be likelihood that they will seriously reduce the herds. Even were there no such danger effective steps to restrain them should be taken in fairness to hunters who observe the law and have no desire, or purpose, to violate it.  
Restraint can be effective only if the violators are hunted out and punished severely. The department's agents can hunt them out, but if they decide to stand trial the question whether they will be effectively punished will rest with the juries who will try their cases. The record of juries in fulfillment of their duty has not been in the past any too good. Too many of them have seemed to have been moved by hostility to give, those under charge the benefit of all the doubt.  
The department can be fully effective in the efforts it makes to decrease illegal meat hunting only if it has full support of juries that are called in cases where trial is demanded. It should be given this support.

BY MARQUIS CHILDS

Washington—What the Senate was investigating committee said in its latest report about the urgent need to get back civilian controls over the army is what most senators have been wanting to say for a long time.

Childs

That report lived up to the high standard set in the days when Harry Truman was its chairman. It pulled no punches. It stated the frank conviction that the army is setting up huge reserves of manpower in the Pacific which cannot possibly be used "except in the event of an almost disastrous military setback," and that doesn't look very likely at this moment.

The report pointed out the serious delays in reconversion. And it put the blame, by implication at least, on the two popular political figures who have headed the Office of War Mobilization and Reconversion during the past three years—James F. Byrnes, now Secretary of State, and Fred M. Vinson, now secretary of the treasury.

As a cure, the Mead committee proposes that the new war reconverter, John W. Snyder, supervise the operation of all government agencies concerned with reconversion. At first glance, that looks like a good idea.

—WOULD NEED BIG AGENCY—  
What it would mean, however, is expanding the Office of War Mobilization and Reconversion to enormous size. It would have to be as big as the War Production Board if it did the supervisory job recommended by the report.

Neither President Truman nor Reconverter Snyder will take kindly to that idea. To set up a vast new agency at this time—and that is what would have to be done—seems like a move in the wrong direction.

When the President discussed the job with Snyder, his old friend, it was in terms of a policy-making role in which the reconverter would have the power to make top decisions relating to the effort to get the American economy started back to a peacetime basis. He must have that power if he is to be more than a polite mechanism for approving inevitable compromises.

He does not now have the power, and the reason he does not have it is because he gets almost no cooperation from the war department. The civilian heads of the war department simply will not go along on what are considered the minimum essentials of reconversion.

Not only manpower but machine tools are being hoarded. Several times the reconverter's office has had to fight the delaying tactics of the war department where, plainly, machine tools could not conceivably be used for this war.

—DEPENDS ON TRUMAN—  
Much more cooperation has been forthcoming from the navy department. Secretary Forrestal has worked out a reasonable system of cutbacks which takes into account the changeover to a one-front war and the fact that naval strength has been so greatly augmented in the Pacific that it cannot possibly all be used against the Japs.

This is a situation which President Truman cannot ignore when he returns from Potsdam. Too much turns on it. As the Mead committee pointed out, a sudden end of the Pacific war could mean near-disaster for us. Then there is Europe, faced with anarchy unless a minimum of coal is sent abroad as a result of increased production in this country.

According to reports that seem reliable, Secretary of War Stimson wants to resign. His successor will have an overwhelming responsibility. Above all, he must be able to assert civilian controls and to work in cooperation with Snyder.

At least three steps are of vital importance. Working with Snyder, the new secretary must:

1. Provide a minimum of manpower for transportation by release from the army of men with experience in this field.
  2. Ditto for coal, where manpower is even more critical than in transportation.
  3. Proceed as quickly as possible to survey the army's manpower necessities.
- The present stalemate, and that is what it is, can only work harm all around. In the past, the military have had the best of reasons to grab and to hoard everything they could. That is not true today, and the sooner everyone recognizes it, the better will be our chances of coming through the next year without a bad smash.

logic must be our guide. The rule, quoted here before, is: To describe a state or condition, use an adjective. To describe the action of a verb, use an adverb.

In this particular case, we wish to say that the hair was cut short (not shortly); or, the hair was cut close . . . to the head. In other words, an adjective is needed to describe the condition of the hair after it has been cut. Therefore: I had my hair cut close.

Q. In the course of my school work my teacher said that "Fish is brain food." I question the singular verb "is." Also, I doubt the "brain food" part, too. How about it, Pancho?

A. Grammatically, the sentence is correct, for "fish" is used in the meaning of "the flesh of fish," just as the word beef is used in the meaning of "the flesh of a beef." Therefore, "fish is . . ." is the proper construction.

Whether fish is or is not a brain food doesn't come under the jurisdiction of this modest department. I have read, however, that the belief is mere superstition.

D. W. D., of Oakland, sends the funniest want ad of the week: "Electric fan for sale. G. E. 12 inch osculator." And in one of my recent articles a typewriter caused me to say, in explaining how to pronounce a certain French word: "Be sure to keep the lips tightly pursed." Pursued by a 12 inch osculator, I presume.

STORY OF HEROISM—It was the spring of 1940 and the Nazis under Hitler, flushed with easy victories, moved into Norway with the help of Vidkun Quisling—and man whose very name has come to mean cowardice and traitorous shame.

Dunathan

There was not much they could do, for they were practically unarmed. But they did not cooperate, and they refused to treat the Germans or the Quisling followers with anything but studied contempt.

Olav Hole, a teacher in the Norwegian school at Larvik, believed in teaching the truth, and he believed in the boys and girls, and in Norway. He and 14,000 teachers in Norway became the backbone of resistance against the Germans and the pompously strutting followers of Quisling, the National Unionists.

When Quisling ordered all of the Norwegian teachers to join a Nazi organization to instruct Norwegian youth in Nazi ideology, Olav Hole refused and so did 12,000 other teachers.

PLEDGE TO PUPILS —The teachers adopted a pledge in those dark days—a pledge which became a shining light of courage in a dark time for Norway. It was a pledge to the youth of Norway, and in part was:

"I will not call upon you to do anything which I regard as wrong. Nor will I teach you anything which I regard as not conforming to the truth."

MARK OF THE BEAST —The revolt of the teachers had its effect in sustaining the courage of Norwegians and in bringing about a slumbering defiance and open acts of contempt for the enemy. It also brought down upon the teachers the full fury of the Nazis, who had been trained in bestial cruelty from the days of the Jewish pogroms in Berlin.

For Olav Hole and 700 other teachers, who were to be made examples, there began a long series of cruelties, indignities and sufferings at the hands of the enemy. As prisoners they were moved slowly northward to the Norway-Finland border, with occasional opportunity to "change their minds" and become Quisling helpers. Consistently they refused, and consistently they were persecuted, beaten, humiliated.

The last step was a 12-day "death voyage" to Kirkenes in the northernmost limit of Norway and a Nazi concentration camp.

THE UNDERGROUND—Back in Larvik, where Olav Hole had taught the truth for many years, were his wife, Elizabeth, and his daughter, Jorun. The agony of their suspense was repeated in hundreds of other Norwegian homes, which had lost fathers and sons because the conviction of right was greater than fear of the enemy.

Through the underground Mrs. Hole conveyed a radio message to her brother, the Rev. Otto Sten, formerly of Manistowish, now pastor of the First Methodist church in Escanaba. The message was that Olav Hole was "presumably dead." Then the darkness of German oppression closed down again and no further word of the fate of Olav Hole came from a land once proudly free.

liberation of Europe there came a letter from Mrs. Hole to her brother and his wife—the first letter in five years. It was written in English.

Dearest Otto and Signy:  
I am so sorry to inform you that Olav died in a German prison in Kirkenes May 6, 1942, but the sacrifices are not in vain. We have gotten reward for the biggest offers. Our freedom we have back again.

No one can explain what that means. One has to experience it. After five long years of physical and intellectual and spiritual humility, terror and choking smothering, suppressing atmosphere, we are free.

There are millions who these days miss their own more than ever before; but just the same we are thankful for what they gave. My wish is that Japan soon might be finished, so you all may enjoy the peace.

Sister Elizabeth.

GAVE LIFE ITSELF—The "father" of whom she writes is Rev. Sten's father, now 90 years old. Johannes is another sister of the family.

A teacher-friend of Olav Hole wrote an "In Memoriam" for the man whose death "welded us all even closer together, in an unbreakable unity—in a great cause."

This friend who had shared the sufferings of Olav Hole in the German prison camp at Kirkenes, wrote feelingly:

"We honor Olav Hole's memory now in the spirit of freedom and we bow in gratitude. When required he gave all, even life itself, and no one can do more."

So ends the story of the man who defied the tyrant and the traitor and "gave his life for Norway's youth."

What do you want to know? We will answer questions on any subject not involving extended research. Legal or medical advice cannot be given. Write your question clearly, sign your name and address, and (IMPORTANT) MAIL THIS COUPON and a 3-cent stamped, self-addressed envelope to Service Bureau, 1217 Thirteenth St., Washington 5, D. C., for a personal reply. Don't telephone: write as directed.

G. I. Service

Q. Where may veterans borrow money under the G. I. Bill?  
A. Money may be borrowed anywhere people normally go to secure loans; i. e., any bank, other lending agency, or an individual who is capable of servicing the loan.

Q. What benefit does the veteran get from having the Veterans Administration guarantee the loan?

A. The guaranty of the Veterans Administration pledges the credit of the United States Government that not to exceed half the loan, with a maximum of \$2,000, will be repaid. It, therefore, increases the security a veteran can offer a lender by the amount of the guaranty and correspondingly increases the amount he can borrow.

Q. Are former members of the SPARS entitled to hospitalization or domiciliary care in a Veterans Administration facility?  
A. Yes, former SPARS are entitled to all the benefits of the Veterans Administration accorded male members of the armed forces.

Of General Interest

Q. Is there any difference in the size of the balls used in billiards and for pocket games?

A. Standard sizes of balls for match and tournament contests in billiards measure 2 3/8 inches in diameter, and those used in pocket games are 2 1/4 inches in diameter.

Q. What is the origin of the word "fanfare"? As a fanfare of trumpets heralded the announcement of another victory.

A. It is a French word, which has the same meaning in French as in English.

Q. Are such terms as "awfully nice," and "thanks awfully" good grammar?

A. They are British and American idioms, widely used, but not considered to be cultivated speech. Awfully means awe inspiring, terribly, majestically.

Of Interest to Women

Q. Can you suggest a way to exterminate moles in our lawn?

A. Trapping is one of the most dependable methods of destroying them. Repellent materials are often used successfully. Runways should be opened with a stick at intervals of 10 to 15 feet and a teaspoon of flake naphtha, moth balls, paradichlorobenzene, or lye inserted, after which the holes should be carefully closed with soil. Moles may be drowned occasionally by flooding the runways with a garden hose.

Q. Please give a recipe for Tom Collins.

A. A standard recipe is: One jigger of dry gin, one teaspoon of powdered sugar, juice of half a lemon. Shake well and pour into glass containing ice; fill with sparkling water.

Igor Stravinsky, the composer, uses only half of his name. He was christened Igor Feodorovich Soulima-Stravinsky.

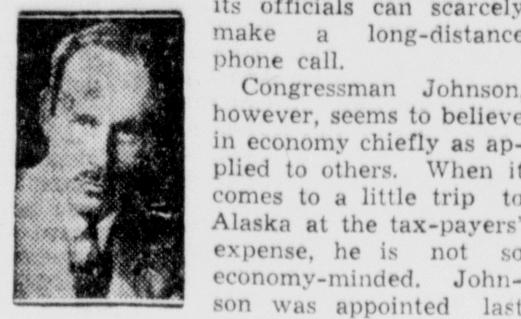

Rimsky-Korsakow, the famous composer, was a sailor on a Russian boat that docked in the harbor of New York in 1864.

The average person, according to estimates, has 18 moles.

The Washington Merry-Go-Round

BY DREW PEARSON

Washington—One of the greatest economy-howlers in Congress is Representative Jed Johnson of Anadarko, Okla., who, as Democratic chairman of the Sub-Appropriations committee, insisted on cutting the interior department so drastically that its officials can scarcely make a long-distance phone call.

Pearson

Congressman Johnson, however, seems to believe in economy chiefly as applied to others. When it comes to a little trip to Alaska at the tax-payers' expense, he is not so economy-minded. Johnson was appointed last winter to be judge of the customs court in New York City, a job which pays him \$10,000 and a fat pension for life. He has been officially confirmed by the senate, and New York customs court officials long have been waiting for the Oklahoma solon to take his job.

However, Jed is in no hurry. Not only did he sit out the current session of Congress, but he is taking one last fling at the taxpayers' expense before donning judicial robes. He and his sub-committee on interior department appropriations are now in Alaska on a so-called "inspection" trip. The sub-committee includes Congressmen Mike Kirwan of Youngstown, O., John Rooney of Brooklyn, N. Y., Ben Jensen of Exira, Ia., and Henry Dworshak of Burley, Idaho.

—CONGRESSMEN LOVE ALASKA—

President Truman has cracked down on congressional junkets when taken free in army planes, but Jed Johnson has got around this. His committee traveled to Alaska on "official business" and Congress is footing the bill.

In fact, there is a lot of official business up in Alaska this summer. A total of three congressional committees is enjoying the cooling breezes, the fine fishing, and the lovely scenery of Alaska.

Congressman Hugh Peterson of Ailey, Ga., is going to Alaska in style. Peterson is chairman of the House Territories committee, and is taking with him Mrs. Peterson, their son, Hugh Jr., and their niece Sue Smith Peterson. They are going by boat along with 11 other congressmen; some, members of the Territories committee; some, members of the Public Roads committee.

The Congressmen scheduled for the Alaska Junket include: Will Robinson of Provo, Utah, chairman of the Roads committee; Jennings Randolph of Elkins, W. Va.; Paul Cunningham of Des Moines, Ia.; Ed Gossett of Wichita Falls, Tex.; Gus Kelley of Greensburg, Pa.; John Gibson of Douglas, Ga.; Homer Angell of Portland, Ore.; A. L. Miller of Kimball, Neb.; Harold Hager of Crookston, Minn.; Charles Robertson of Bismarck, N. D.; and Marion Bennett of Springfield, Mo.

In addition, Congressmen Henry Larcade Jr. of Opelousas, La., and James Geelan of New Haven, Conn., got a head start, along with Harden Peterson of Lakeland, Fla., by stopping in Texas and California to inspect beach erosion as members of the rivers and harbors committee. After this, they headed for the cooling breezes of Alaska.

Why the three committees couldn't pool their efforts, instead of all taking up valuable travel space, is a question to be answered only by congress.

—MERRY-GO-ROUND—

Watch live-wire newspaper publisher Manchester Boddy of Los Angeles as the next probable Democratic candidate for senator from California. Roosevelt once invited him to Washington, asked him to become civil defense administrator for the nation, later wanted him to be commissioner of internal revenue. But Boddy couldn't leave his Los Angeles Daily News . . .

Now, with aged Senator Hiram Johnson ailing, Democratic leaders both in Washington and California hope Boddy can be persuaded to run for the senate . . . Once before, when Hiram Johnson was under an oxygen tent in the Naval hospital, word that Governor Warren would appoint Herbert Hoover to his Senate seat caused the spunky, cantankerous California Senator to recover. This was the story carried to FDR by Naval Doctor Ross McIntire . . . Emil Schram, one-time head of the Reconstruction Finance Corporation, now head of the N. Y. stock exchange, was invited to take Jesse Jones' old job as Federal Loan Administrator. Schram came to Washington to look things over, went away shaking his head. Tenure of office was too insecure in Washington, he mumbled, and he had too good a job in New York.

—JIM FARLEY MOURNS CHURCHILL—

Jim Farley came back to his old haunts last week-end and had lunch with, among others, Tommy Corcoran, head of the older FDR brain trust with whom he did not always agree. A dozen senators also were present, guests of South Carolina's Burnet Maybank.

Chief topic was the defeat of Winston Churchill. Several senators blamed the defeat on Beaverbrook. Some said Churchill was too old and too tired, hadn't sensed the temper of the British people, was a victim of his incompetent friends.

Jim Farley deplored Churchill's defeat, but dropped this warning to his senatorial friends: "You are going to get some real competition now."

Jim went on to explain that previously the only radical ideas came from Russia, but now American politicians would have to compete with radical ideas from British politicians.

Farley went on to say that Churchill had saved England. Whereupon Kentucky's scrappy Senator Chandler observed: "Nuts! Two hundred and fifty American divisions and the American people saved England."

Falls are the leading cause of accidents in the United States. And with bananas scarce, too!

Indians in the United States speak 55 distinct languages. Almost as many as the pale-faces.

## MUCH RUBBER WAS PRODUCED

Tires, Battery Cases And Numerous Other Articles Made

Washington, (SS)—Some idea of the tremendous wartime production of rubber goods for the armed services may be gleaned from a report issued here today by the Rubber Manufacturers Association. Tires are but a single item. Equally essential, perhaps, are rubber boots for troops, battery cases, rubberized textiles, heels and soles for shoes, and rubber boots for troops, battery cases, rubberized textiles, heels and soles for shoes, and rubber pads for tanks, aircraft and battle-ships.

More than 30,000 different rubber products were manufactured for war uses. Some were made from the limited supply of natural rubber, some entirely of synthetic rubber, and others of a combination of the two. The production program was hampered to some extent by the necessity of manufacturers and workmen learning how to use the new synthetic raw material.

Tens of millions of tires for land, air and amphibious vehicles have been produced since the beginning of the war, the report states. Over 45,000,000 pairs of rubber boots and shoes have been made, and some 10,000,000 hard rubber battery cases. More than 150,000 pounds of rubber compound is used in each new battleship. Over 360,000,000 yards of rubber-coated fabrics have been produced. Thousands of other rubber needs, from life rafts to blood plasma tubing, have been met.

Rubber industries had considerable natural rubber to use the first two years after Pearl Harbor, with some 600,000 tons of it on hand in December, 1941, and additional on boats on the sea. In three months the Japs controlled 90 per cent of the world's sources of natural rubber. The first pound of synthetic rubber from the first plant in the joint government-industry program was produced on May 18, 1942. New synthetic rubber is being produced at a rate of over 700,000 tons a year. War needs are being met, and some rubber is available for the more essential civilian needs.

### MCCORMACK ON LEAVE

Iron River—Commr. S. A. McCormack is spending a leave here with his wife and family and with his parents, Mr. and Mrs. A. E. McCormack.

He recently returned from a shake-down cruise of a new destroyer of which he is skipper and expects a transfer of his warship and personnel to the Pacific.

## U.P. Farmers Roundup Tomorrow At Chatham

Farmers of the Upper Peninsula tomorrow will gather at Chatham for the 26th annual roundup program, where a program of interest to farmers and their families will be held under the sponsorship of Michigan State College.

Two State college faculty members, C. G. Card, professor in the poultry department, and A. W. Farrell, head of the agricultural engineering department, will speak during the afternoon program. The roundup will begin at 10 a. m. with horticulture tours under the direction of Perry Bowser.

Farmers and homemakers will see the following:

Perennial garden; home vegetable garden; variety tests with tomatoes, head lettuce and sweet corn; hot cap work with tomatoes.

Tours under the direction of D. L. Clannahan and J. L. Heiman will be conducted every 20 minutes, to the upper farm, where the following field crops will be seen:

**Field Crops, Poultry**  
Experimental work with potatoes; summer fallow for quack control; certified oats and barley; soil fertility plots; Regent wheat, a recommended wheat variety for the Upper Peninsula; spring wheat variety tests; oat and barley mixtures, oat variety tests.

Visitors to the poultry plant will see White Leghorns, White Rocks and Hampshires; Pullets on range in range shelters; cross-bred Pullets hatched in January now in production; new summer laying house.

At noon, visitors will eat a basket lunch in the orchard. Between 1 and 2:15 in the afternoon, the main speaking program will be held in the boys' lounge of Camp Shaw. Speakers and topics include:

C. G. Card, professor in poultry, M.S.C., "Timely Poultry Tips"; A. W. Farrell, head of the agricultural engineering department, M.S.C., "The Place of Engineering in Farm Equipment and Farm Homes"; Howard J. Gramlich, general agricultural agent, C. & N. W. Ry., Chicago, "Unscrambling the Omelet."

**Departmental Programs**  
At 2:15 departmental programs will begin, continuing until 4:15.

Miss Helen Noyes, assistant state

home demonstration leader, in charge of home economics, will speak on "Use of Feed Sacks in Home Sewing." A sound picture, "We Can Too," will also be shown. George S. McIntyre, livestock specialist, will be in charge of the dairy program. Prof. H. E. Howard, M.S.C., will speak on "Milk Secretion and Mastitis." Farmers will also see a display of labor saving and other equipment.

Those interested in horticulture will resume tours of the vegetable gardens.

Prof. Card will answer questions of persons interested in poultry, and a short demonstration in the use of the portable grain elevator will be given by George Amundson, extension agricultural engineer.

## Bronze Star Is Awarded To Sgt. Henry Levesque

Sgt. Henry Levesque, son of Mr. and Mrs. Joseph Levesque of Bark River, has been awarded the Bronze Star for heroic achievement in action on Oct. 10, 1944, near Sassi, Italy.

His citation reads as follows: "When a light machine gun section encountered severe enemy machine gun cross fire, Sgt. Levesque, a squad leader, moved courageously under fire, assembling the men. Completely disregarding his personal safety, he led the section to a covered position as bullets struck around him. Quickly reorganizing the men, he unhesitatingly led them through grazing and murderous cross fire to successfully contact the remainder of the company. Sgt. Levesque's prompt and courageous action enabled the section to maneuver and rejoin the company without suffering casualties. Sgt. Levesque's outstanding leadership ability and his profound loyalty to duty reflect great credit on himself and becomes the highest tradition of the armed forces."

Sgt. Levesque has been in the army for three years, spending the past year and a half overseas. He is stationed in Italy at present.

Mrs. Agnes Peterson and other relatives and friends here. Mr. and Mrs. Fred Beauchamp of Iron River returned to their home Wednesday. They were accompanied by their mother, Mrs. Joseph Gerou of this place. Mrs. Robert Conard of Green Bay and Mrs. Joseph Nault of Iron Mountain, who will visit in Iron River.

At a simple ceremony performed on July 28 before Justice of the Peace H. E. Ranguette, Miss Elizabeth Stiemert became the bride of Sgt. Arthur H. Way. The bride is the daughter of Mrs. Rose Aldrich, 125 South 24th street, and Earl H. Stiemert, on duty with the U. S. Navy in the Pacific. Sgt. Way is the son of Mr. and Mrs. Gilford Way of Cornell.

Attending the couple were Marge Seward of Escanaba, and James H. Woodward of Chicago. Following the ceremony, a wedding supper for eight guests was served at the home of the bride. The couple left for a trip to Manistique, and will make their home at 125 South 24th street.

The bride was employed at the City Drug store here. Sgt. Way was with the Eighth Air Force, and was a German prisoner for a year.

Out of town guest at the wedding were Mrs. R. J. Baugh of Manistique, and James H. Woodward of Chicago.

TAXES ARE PAIDCity Levy Of 20 Mills  
Is Same Rate As  
Last Year

A total of \$11,186.35 has been collected of the 1945 tax levy in the City of Manistique, City Treasurer Evelyn Mickelson reported yesterday.

The general city levy is \$63.466 or \$17 per \$1,000 of assessed valuation in the city, and the levy for bonds and interest is \$11.180 or \$3.00 per \$1,000 assessed valuation. The total assessment of 20 mills is the same as last year and is the maximum permitted under the city charter.

The collection of city taxes began July 10 and local taxpayers have until Sept. 15 to make their payment to the city without penalty. After that date a penalty of 4 per cent is added to the bills.

Of the total levy of \$76,646, the amount collected to the end of July, \$11,180, represents slightly less than 15 per cent. However, the large taxpayers, including the industries, generally delay payment until the final day for payment without penalty.

Miss Joyce Eaton  
Of England Weds  
Lt. Ferd Lesica

In a beautiful mid-summer, Anglo-American nuptial, Miss Joyce Olive Eaton, only daughter of Mr. and Mrs. H. H. Eaton, 363 Felixstowe Road, Ipswich, Suffolk County, England, became the bride of First Lt. Ferdinand Lesica, youngest son of Mr. and Mrs. Joseph Lesica, Sr. of 237 N. Cedar street, Manistique, Mich., on 11th of July.

The nuptial high mass at 10:00 a. m. was offered by Rev. Father Jacob J. Rieby, of St. Pancras Roman Catholic church, Ipswich and was sung by the choir of St. Pancras church.

The bride, who was given away by her father wore a gown of pearl satin, with full length embroidered veil, held in place by a coronet of orange blossoms and carried a bouquet of dark red carnations with trailing ferns. She was attended by two bridesmaids, Miss Pamela Pearce and Miss Barbara Lenney, who were dressed in rose pink taffeta with feathered headress and veils to tone. Both carried shower bouquets of mixed sweet-peas.

Capt. Frank Krupp, of New Jersey, and from the same base as the groom was best man. Douglas Eaton, brother of the bride acted as usher.

A reception for 55 guests, American servicemen and officers and guests and close friends of the bride, was held at the Masonic Hall. Two wedding cakes, one American style and one English formed the center piece of the banquet served at 1:00 p. m.

The bride is a graduate of the public schools at Ipswich, and the groom a graduate of the Manistique high school, class of 1936. First Lt. Lesica, has served for 22 months with the Chemical Warfare Service, of the 8th Air Force in England, and received his commission at Edgewood Arsenal, Baltimore, Maryland, on May 1, 1943.

The young couple left on a wedding trip to Lock Lomond, Scotland, and for traveling the bride wore a brown tweed coat with accessories to match and a spray of orchids.

SERVICE ROADNew Route To Provide  
Fire Protection  
For Industries

Construction of a new street to bisect US-2 and Mackinac Road to provide added fire protection to the Michigan Dimension company and the City Lumber and supply company has been started by the City of Manistique, City Manager Charles Manson has announced.

The road, which will be 367 feet in length, will be constructed on property deeded to the city by the City Lumber company. A strip of right of way 66 feet in width was deeded to the city and a 20 foot gravel road will be constructed.

Two culvert failures which virtually sealed off access to the Michigan Dimension company and the City Lumber and Supply company prompted the decision to construct the new road. Although the culverts had been repaired and the danger of another collapse is minimized, the new road will guarantee quick access to the industrial area as an auxiliary route in the event of fire.

The road also will serve the Manistique Tool and Manufacturing company's loading dock and a new parking lot that is being constructed there.

Mackinac Road is a new designation of the road that leads to the Michigan Dimension company and the City Lumber company from Otter street. This road was previously unnamed.

SECOND FIELD  
DAY PLANNEDFirst Program Winners  
Announced By Play  
Directors

A second beach and field day is to be conducted Saturday for the children of Gladstone. Similar events are to be held each week-end culminating with a big celebration Labor Day, it is announced.

In the initial event Richard Lambert and Neil Sinclair were the birling winners while Francis Rabitoy and Bobbie Abraham took swim honors at the beach.

At the playground the girls tennis event was won by Dolly Olson, the boys' junior by Jack Olive, the boys' senior by Don Boucher and the doubles by Cassidy and Schense.

Sue McGary and John Alwörden were shoe race winners and Sue McGary also won the sack race while the boys winner was Tommy Lalonde. In the running races Dick Stadel won the boys' 8-12 and Mike Franks the boys' 13-15 while in the girls running races Sue McGary won the 8-12 age race and Ann Sword the 13 to 15.

In jumping contests Neil Sinclair won the boys contest and Ann Sword among the girls. Tommy Lalonde and Joye Lambert were the cracker contest winners with Jerry Tang topping them at drinking pop through a nipple. The tug-of-war went to the Buckeye Kids.

Over a million 1945 Michigan hunting licenses and an equal number of correspondingly numbered tag tags will be shipped by the conservation department to its authorized dealers this month.

The department has stepped up the quantities of resident small game hunting, and resident deer licenses ordered from the printers, anticipating increased demand. Resident hunting licenses sold last season totaled 550,000; resident deer, 225,463, on basis of latest figures available. The department has ordered 700,000 of the former, 310,000 of the last-named licenses for 1945.

Buyers scoured the market for enough window shade cloth to provide the back tags worn by hunters. Colors of 1945 back tags are: Resident hunt, pongee; north nonresident hunt, lilac; nonresident hunt, orange; resident deer, medium green; nonresident deer, blue; resident bow and arrow, light green; nonresident bow and arrow, yellow.

No change is made in seals supplied to deer hunters for attaching to carcasses of animals taken.

mony on the St. Mary's church lawn, brought the summer school sessions to a fitting conclusion. One hundred and twenty-five Catholic children attended the classes faithfully under the able direction of the Sisters of St. Dominic of Adrian, Michigan.

In the evening a large procession of twenty-two altar boys, 125 boys and girls, seven little girls dressed as angels, followed by the crown queen, Elaine Grenier and her four maids of honor, Barbara Furlich, Dorothy Rodman, Barbara Rodman and Dorothy Stockero, marched forth from the church together with over 300 parishioners of St. Mary's, carrying lighted candles, proceeded to a beautiful altar on the hill near the church. A life size statue of the Blessed Virgin Mary stood upon the altar and it was surrounded by flowers and candles. On one side of the altar the stars and stripes floated in the evening breeze and on the other side stood the St. Mary's Honor Roll containing the names of 120 girls and boys in the service.

When the procession reached the altar the Novena prayers to Our Mother of Perpetual Help were said by all. This Perpetual Novena is held every Friday evening of the year in the St. Mary's church. After these prayers, the children and all the people, accompanied by the organ, sang the beautiful hymn "O Mary We Crown Thee with Flowers Today."

During this hymn, Elaine Grenier placed a crown of flowers upon the head of the Statue of the Mother of God. A sermon on the Dignity of the Mother of God was preached by the pastor, Fr. Hennelly.

Then followed the consecration of the whole parish, men, women and children and our boys and girls in the service, to our Blessed Virgin Mary. Special prayers were then recited for the boys in the armed forces and appropriate prayers for the boys from St. Mary's who laid down their lives for their land and country. In tribute to them, the taps were sounded and the gun salute fired by three soldiers.

Benediction of the Most Blessed Sacrament followed and then the children and people of St. Mary's marched back to the church singing, "Holy God We Praise Thy Name."

The streets around the church were lined with cars and many friends stood reverently by watching the large crowd of people carrying their lighted candles to honor God through his Blessed Mother.

REV. DONALD  
IS RETURNINGCompletes New Course At  
Wesley Memorial  
Hospital

The Rev. William C. Donald II is returning to Gladstone this week after attending a five-weeks course in hospital chaplaincy at Wesley Memorial hospital at Chicago.

Highlighting the closing of the course was a banquet last Friday evening in the doctors' dining room at the hospital at which the minister-student, the faculty, Dr. Snyder, president of Northwestern university, and Ernest Erickson, president of the American Hospital association were guests of the hospital.

Under the headline "Ministers Study Care of Sick in Hospital" there appeared in the Chicago Sun last month a story concerning the course taken by Rev. Donald written by James O. Supple, religion editor of the Sun.

The story follows: "Every day for five consecutive weeks ten Protestant ministers go to Wesley hospital, put on white garb like interns and study a course in ministry to the sick which includes such practical experience as serving as orderlies and watching serious surgical operations."

"The course, directed by the Rev. Russell L. Dicks, hospital chaplain, is sponsored by the hospital, the Northwestern University medical school and Garrett Biblical Institute, Methodist Seminary in Evanston.

**Course Is Unique**  
"This is the first time in American educational history, Dr. Dicks says, that a medical school has joined forces with a seminary and a hospital in creating a project of this kind."

"The course, inaugurated two weeks ago, requires full-time attendance by the ten ministers, four of whom plan to make hospital chaplaincy their life work."

"For five weeks they serve as orderlies, help the nurses in care of patients, study psychology and psychiatry, witness surgical operations and attend lectures by doctors and nurses of the hospital staff."

**Faculty Well Known**  
"The faculty includes such well-known doctors as Dr. Raymond W. McNeely, chairman of the department of surgery; Dr. Mark T. Goldstone, chairman of the department of obstetrics, and Dr. Vincent J. O'Connor, chairman of the department of urology."

"The course is based, Dr. Hicks explained, on two theories: (1) That the spiritual factors have a bearing on the recovery of the sick; (2) that the clergyman who wishes to help the sick spiritually and mentally should work in cooperation with doctors and not independently."

**Doctors Interested**  
He said that in recent years doctors have become interested in the possibility of medically-trained hospital chaplains helping in the curing of the sick. This trend has received further impetus, he said, from the wartime interest in psychiatry.

"The course has been opened to clergymen of all denominations. The Presbyterian, Lutheran, Episcopal, Methodist and Mission Covenant faiths are represented."

## Briefly Told

# Detroit Noses St. Louis In Slugfest, 9-8; Pirates Blank Cubs, 1-0

## TIGERS SCORE 4 IN NINTH INNING

### Double With Bases Full, Plus Wild Throw, Nips Belting Browns

Detroit, Aug. 1 (AP)—Roy Cullenbine's ninth inning double with the bases loaded scored three runs and Cullenbine raced across the plate on Vern Stephens' wild throw to bring the Detroit Tigers a hard-earned 9 to 8 victory today over the St. Louis Browns in a Slugfest.

Lou Finney, making his first appearance in the St. Louis lineup after his purchase from Boston, belted a grand slam homer as the Browns batted around in the fifth to score five runs and chase Paul (Dizzy) Trout.

**Bengals Bounce Back**  
The Tigers bounced back with two runs in the fifth on Eddie Mayo's home run, another in the sixth on Rudy's York's drive into the left field seats and two more in the eighth on Hank Greenberg's fourth homer.

Two passes by relief pitcher Zeb Eaton followed by Nelson Potter's third single scored the Browns' sixth run in the eighth and Gene Moore's two-run homer made it 8-5 going into the Tiger ninth.

Pinch-hitter Ed Borom led off with a single but was forced at second by Chuck Hostetler. Hubby Walker drew a pass and Al Hollingsworth became the third St. Louis pitcher, walking Mayo to fill the bases. Cullenbine bounced a double off the left-center field fence, took third on Stephens' throw to the plate and scored the winning run as the ball bounced through catcher Mike Hayworth.

Frank (Stubby) Overmire, who gave three hits and two runs in the St. Louis ninth inning, was the winning pitcher and Hollingsworth the loser.

Altogether the five home runs accounted for 11 of the game's 17 runs—six for the Browns and five for the Tigers.

## Win Streak Stretched

The Browns didn't have a hit off Trout until they ganged up on the big Tiger righthander for six in a row in the fifth as they staged their five-run spree.

Detroit trailed all the way to the sudden climax but tagged Potter for 10 hits in seven innings and added one each off George Caster and Hollingsworth.

Trout yielded six hits in 3 1-3 innings; Eaton gave three in 3 2-3 and Overmire three in one.

The victory stretched Detroit's winning streak to five games, equalling their longest of the year, and gave the Tigers a five game lead over second place New York.

Al Benton and Jack Kramer were slated to hook up on the mound in the third and final game of the series tomorrow.

## PRESENT TROPHY HERE TONIGHT

### Ceremony Will Precede Softball Game At Lighted Field

The Iron Mountain Liberty Loans, last year's softball champions, will receive the Class A trophy in a brief ceremony before their game with Dagenais Grocery tonight at the lighted field. White Birch of Flat Rock will receive the Class B trophy in recognition of their triumph last season.

The preliminary game will start at 7:45 and will bring together two National League teams, Bird's Eye and the Ford V-8's. The Bird's Eye will be trying to gain the second-place position in the league while the V-8's will be out to hold onto the lead. Winky Curtis will pitch for the Veneer team with Wally Larson catching. The battery for the Motors will be Homer Lacosse and Roy Swanson.

In the feature game, Tommy Elgreet or Bill Doucette will pitch for Dagenais and Albin Hanson will catch. The Liberty Loan battery has not been announced.

## Senators Take Two, Pounce On Newsom

Washington, D. C., Aug. 1 (AP)—Bloopers Bobo Newsom's personal winning streak of five games was snapped tonight at Washington defeated Philadelphia in both ends of a doubleheader, 2-1 and 3-0.

The victories moved the Senators into a second place tie with New York.

Newsom was the victim of Wolff's shutout hurling in the second game and a three-run Washington attack in the third inning.

## The Sports Parade

(By NEA Service)

New York—Col. Edward P. F. Eagan has been doing a swell job as chairman of the New York State Athletic Commission, but it seems to me he pulled a boner in assigning Lou Magnolia and Teddy Martin to referee the bouts at Madison Square Garden last Friday night, July 2.

Neither of these men has had enough experience for the big time. Martin seemed to think he was in there to manhandle the boxers. Ted is a husky individual, and he officiated in the bout between Freddie Russo of Rahway, N. J., and Sal Bartolo, of Boston, rated featherweight champion by the National Boxing Association.

At the slightest suggestion of infighting, Teddy grabbed the little fellows and hurled them apart. The fighters probably took more punishment from the referee than they took from each other. At the finish, Martin was wringing wet from his efforts. I couldn't

help contrasting his technique with that of Lt. Comdr. Benny Leonard, who would have refereed that bout without getting up even a bead of perspiration on his brow—and would have made the fight look much better. It could have stood looking better, too!

Magnolia is the son of the late Lou Magnolia, one of the most colorful referees that ever performed in the Garden. He is really doing the job, and Harry Balogh would have done well to introduce him as such. Old Lou knew all the angles, and when he made a decision it stuck.

When Abel Cestac, the gigantic Argentinian, sustained a slight cut over the left eye, Lou, in a dither, stopped the fight and called Dr. William Walker, boxing commission physician, into the ring to examine the superficial wound. Walker took one glance and ordered the fight to proceed. Old Lou would never have bothered about a little thing like that. He knew a little while when to stop a contest.

Young Lou didn't know which fighter was which, although one, John Thomas, of Fort Lauderdale, Fla., is black as shoe polish and Cestac, the Argentinian, is white as chalk. When Thomas butted Cestac, Magnolia warned Cestac against butting. He capped his performance by ringing the names of both fighters as the winner, and allowed announcer Balogh to announce his decision as seven rounds for Cestac and three for Thomas.

After the decisions of the two judges were announced, Magnolia completely reversed himself, declaring Thomas the winner, seven rounds to three, explaining he didn't know which was which.

Lou Magnolia, Jr., looks like his famous dad from the nose up. But young Lou sports a neat little moustache—something his daddy never had. Moustaches went out of style for referees with the death of the noted George Siler.

Magnolia's first decision, making Cestac winner, was broadcast by shortwave to South America, which was off the air by the time Lou's correction was made.

So the "good neighbor" in Argentine can howl: "We wuz robbed!"

## Pro Football Told By ODT To Hurry Up Travel Cutdown

Washington, Aug. 1 (AP)—The Office of Defense Transportation today told professional football to hurry up with reductions in its 1945 travel schedule.

The agency also announced disapproval of the National Amateur Federation baseball tournament at Youngstown, Ohio, Sept. 8-16 involving about 400 players.

In disapproving the amateur baseball tournament, the ODT figured it would use 286,400 passenger miles which could be utilized in the redeployment program.

A wire of disapproval was sent to L. A. Beeghly, president of the Youngstown Chamber of Commerce.

The ODT said 20 teams of 20 players each are entered.

Beeghly recently wrote the ODT saying that "we assure you that the only transportation facilities required will be those to bring the teams to Youngstown."

Michigan teams in the meet are: Detroit, Dearborn, Battle Creek, Pontiac, Royal Oak and Flint.

## Squeeze Play Wins For White Sox, 2-1, Up In Fifth Place

Cleveland, Aug. 1 (AP)—The Chicago White Sox moved into fifth place today, defeating the Cleveland Indians 2 to 1 as Leroy Schalk scored on Floyd Baker's squeeze play in the ninth inning.

Steve Gromek absorbed his sixth loss of the season as he fell victim to Ed Lopat, Chicago left hander.

The Pale Hose scored in the fourth as Schalk's double to left field plated Kerby Farrell.

The Indians evened things in the seventh when Pat Sheehey clouted a four-baser with none on.

In the ninth after Schalk and Johnny Dickshot singled, Baker bunted and the squeeze play scored Schalk and sent Dickshot to second.

Chicago collected five hits and the Indians, seven.

Score by innings:  
Chicago ..... 000 100 001—2 5 1  
Cleveland ..... 000 000 100—1 7 0  
Lopat and Treesh; Gromek and Hayes.

## Birds Eyes Take Silver Fronts, 7-6

In an exciting extra-inning game, the Bird's Eyes defeated the Silver Fronts at softball last night, 7 and 6. The tilt was featured by the timely hitting of Wally Hubert, who collected two doubles and a single, the latter in the eighth inning with two out and two on base. Batteries were: Bird's Eyes, Curtis and Larson; Silver Fronts, Anderson and Plath.

## YANK VICTORY STREAK ENDED

Boston, Aug. 1 (AP)—New York's five game winning streak came to an end today when the Boston Red Sox rallied for four runs in the seventh inning to defeat the Yankees 7-5.

The Yankees got off to a four run lead at the expense of pitcher Jim Wilson in the second inning, climaxed by pitcher Floyd Bevens' first major league home run, with two mates aboard. After the visitors tallied another in the top of the third, Eddie Lake accounted for Boston's first run with his ninth homer.

Trailing 5-3 in the seventh, the Sox drove Bevens off the mound and continued their rally against Jim Turner. Skeeter Newsome's two-run double tied the game and Bob Garbar's single drove in Dolph Camilli with the winning run. Johnson, himself, followed with a long fly, to bring in the last score.

## BUTCHER PUTS ON WHITEWASH

### League Pace-Setters Get Second Shutout Of Season

Chicago, Aug. 1 (AP)—Chunky Max Butcher of the Pittsburgh Pirates, yielding only four hits, blanked the first-place Chicago Cubs, 1-0, to snap the Bruins' latest win string at six and hand the pace-setters their second shut-out of the season.

Frank Colman, replacing the slumping Babe Dahlgren at first base for the Pirates, broke up a brilliant mound duel between Butcher and Claude Passeau with a long double to center scoring Jim Russell from first in the seventh inning with the game's only tally.

Passeau gave way to a pinch-hitter in the eighth after allowing four hits and was charged with his fourth defeat against 11 victories.

Big Max struck out only three, but his final victim was Bill Nicholson in the ninth inning after Don Johnson had singled. Johnson stole second on Nicholson's whiff, but Phil Cavarretta lined out to left to end the game.

It was the first whitewash for the Cubs since New York's Bill Voiselle blanked them 6-0 on May 16. A paid crowd of 17,780, saw the opener of the two-game set.

## Ott's Homer Helps Giants Beat Braves

New York, Aug. 1 (AP)—Mel Ott slammed the 500th homerun of his major league career tonight to lead the New York Giants to a 9-2 victory over the Boston Braves. A crowd of 19,318 paid saw the Giant Manager reach the milestone in the third inning with a drive into the upper right field stand off Johnny Hutchings.

Only Babe Ruth, with 714 and Jimmy Foxx who has hit 531, are ahead of Ott.

The Giants clinched the game in the first inning with three runs on four straight singles off Nate Andrews before a man had been retired. Carroll Lockman hit his second homer in the fourth.

## Bierman To Coach All Stars In Their Game With Packers

Chicago, Aug. 1 (AP)—Minnesota's famed Bernie Bierman will direct the College All-Stars in their charity football game against Green Bay Packers Aug. 30—the first coach ever to serve twice as collegiate boss in the classic's 12-year history.

Bierman's selection as head coach was announced tonight by the Chicago Tribune, sponsor of the All-Star contest which will be staged this season at mammoth Soldier Field.

Bierman's 1936 All-Star squad played the Detroit Lions to a 7-7 tie. Recently discharged from the Marines with the rank of lieutenant colonel, Bierman returns to the Minnesota helm this fall for the first time since 1942.

# FUTURE JAPAN TO BE SMALL

Empire Will Lose 80%  
Of Area Claimed  
Before War

Washington—Four islands, Hokkaido, Honshu, Shikoku and Kyushu, will constitute the principal part of the Japanese empire of the future, according to the Potsdam proclamation. Some 525 small islands off the coasts of these four main islands will undoubtedly be included. Other islands relatively close to the homeland which were possessions of the empire for many years will probably be left to the Nipponese.

This will confine the Japanese empire to an area somewhat smaller than California, but with 10 times as many people as there are in that state. It cannot be an entirely self-supporting nation because much of its mountainous country is not adapted to cultivation. It produces relatively little cotton and wool for clothing, and lacks coal and many of the minerals essential to manufacturing. However, it can regain its place as the center of a great fishing industry.

Squeezing Japan back to 1895 dimensions, the program agreed upon at the Cairo conference and confirmed at Potsdam, means shrinking the 750,000 square miles of territory claimed by the Nips before Pearl Harbor to about 150,000 square miles. The difference is the area acquired between 1895 and 1941.

Formosa was the first of the Japanese territorial gains in the

period. In 1894 Japan made war on China, to acquire this 14,000-square-mile island. In 1895 China was forced to cede it to her. The population of Formosa was around 5,000,000, mostly Chinese and the majority of the island's people still are Chinese.

Before Pearl Harbor, aggressive Japan, in addition to Formosa, had acquired possession or control of the southern half of Sakhalin island (1905), Liaotung peninsula with its seaport, Dairen (1905), Korea (1910), Manchuria (1931), a large area in northeastern China (1937-41), and French Indo-China (1940). Japan acquired a mandate over the Marshall, Caroline and Marianas islands (except Guam) as a result of World War I.

The greatest loss to the Japanese empire will probably be Korea, which they claim outright, together with their control over Manchuria, which the Japs officially call the Empire of Manchukuo. Both have strategic value, particularly against China and the Soviet Union. Their possession made the invasion and conquest of much of China possible in the present Chinese-Japanese war. Their greater value to the Nips, however, is their resources. They have furnished the Jap home islands with great quantities of foods, textiles, coal and the minerals that made the construction of war equipment possible.

MEAT DEPARTMENT

Shop Today or Friday  
if possible for your week-end  
meat supply. Avoid the Satur-  
day rush. You'll get better ser-  
vice and a wider choice of cuts.

FOR YOUR SELECTION  
WE WILL HAVE:

BEEF  
VEAL  
LAMB

Ass't Smoked Sausage  
and Cold Meats

ALSO Fresh Fish, Salt &  
Pickled Herring

# "OF COURSE I CAN!"

I'M PATRIOTIC AS CAN BE—AND RATION POINTS  
WON'T WORRY ME!

COMMERCIAL CANNING  
TO BE EXTREMELY LIGHT!

Governmental reports show a big reduction in the amount of food  
that will be available next winter. HOME CAN ALL YOU CAN.
